PRODUCT INSTRUCTION

Shenzhen Shi Yutong Technology Co., LTD

Note : only suitable for charging voltage below 5v. Do not charge the device with voltage over 5v.

Cautions

1. Do not look at the IR infrared light directly in case of damage to your eyes!
2. Massive power will be gathered when the infrared light is turned on.
Do not aim at flammable items at a close range, otherwise it may cause fire. Please turn the infrared light off or switch to sleep mode after use.
3. Please use rechargeable battery with rated voltage of **3.7V**.
4. If item is defective, notify point of purchase contact for maintenance.
Attempts to disassemble or repair the device unauthorized will make the warranty invalid.

Digital Night Vision

5. IR Fill Light Control

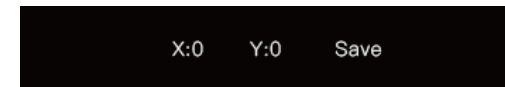

Turn on the device, enter Black and White mode with a long press of IR button. Switch to IR1-3 or off with a short press of IR button. The part of fill light is stretchable which can be pull out or push back to make a quick adjustment.

-8-

1 > Reticle Adjustment

Enter the submenu reticle adjustment with a short press of OK button. Select options with a short press of OK button. Adjust scope reticle or values with some short press of ◀/▶ button.

To confirm your setting by enter "Save" with a short press of + button, choose "Yes" with a short press of OK button; To deny your setting by enter "Save" with a short press of - button, choose "No" with a short press of OK button.

2 > Gyroscope

Enter the submenu Gyroscope with a short press of OK button. Select "Display" or "Calibration" with a short press of ◀/▶ button. Select "On" or "Off" to turn on/off the gyroscope after entering "Display". Turn on the gyroscope before you

-10-

select "Calibration". Enter "Calibration" by pressing OK button. Keep the machine level and remain still for about 8 seconds to complete the calibration.

3 >Default Magnification

Enter the submenu Default Magnification with a short press of OK button. Select "1.0x/ 1.5x/ 2.0x/ 2.5x/ 3.0x/ 3.5x" as default magnification. Confirm your selection with a short press of OK button.

4 >Default Color

Enter the submenu Default Color with a short press of OK button. Select "Color" or "Black & White" mode with a short press of ◀/▶ button. Confirm your selection with a short press of OK button.

5 >Brightness Of IR

Enter the submenu Brightness of IR with a short press of OK button. Select "Off" , "1" , "2" , or "3" with a short press of ◀/▶ button. Confirm your selection with a short

-11-

7 >Auto Recording

Enter the submenu Auto Recording with a short press of OK button. Select "Off" or " On" with a short press of ◀/▶ button. Confirm your selection with a short press of OK button.

8 >Loop Recording

Enter the submenu Loop Recording with a short press of OK button. Select "Off" , "3 minutes" , "5 minutes" or "10 minutes" with a short press of ◀/▶ button. Confirm your selection with a short press of OK button.

9 >Date Stamp

Enter the submenu Date Stamp with a short press of OK button. Select "Off" or " On" with a short press of ◀/▶ button. Confirm your selection with a short press of OK button.

10 >Record Audio

Enter the submenu record audio with a short press of OK button.

-13-

press of OK button. Please note this setting is for the default brightness of IR. Pressing IR button under Black & White mode for instant setting of IR brightness.

6 >Brightness

Enter the submenu Brightness with a short press of OK button. Select "LEVEL 0" , "LEVEL 1" , "LEVEL 2" , "LEVEL 3" with a short press of ◀/▶ button. Confirm your selection with a short press of OK button.

-12-

Select "Off" or "On" with a short press of ◀/▶ button. Confirm your selection with a short press of OK button. This setting is to realize an audio or a silent video.

11 >Beep sound

Enter the submenu beep sound with a short press of OK button. Select "Off" or " On" with a short press of ◀/▶ button. Confirm your selection with a short press of OK button. This setting is to choose whether the keyboard press sound will be recorded into the video or not.

-14-

12 >WiFi

Enter the submenu WiFi with a short press of OK button②.

Select "Off" or "On" with a short press of ◀/▶ button. Confirm your selection with a short press of OK button②. Exit WiFi with a long press of Menu button . (The Menu page can not be opened while WiFi is turned on) The corresponding APP is available in its official website.

13 >Exposure

Enter the submenu exposure with a short press of OK button②. Select one of the options with a short press of ◀/▶ button. Confirm your selection with a short press of OK button②.

14 >Language

Enter the submenu Language with a short press of OK button②. Select one of the options with a short press of ◀/▶button. Confirm your selection with a short press of OK button②.

-15-

8. Shortcuts

① Power/Sleep button

Turn on the device with a short press of power button, turn off the device with a long press of power button. Enter or exit sleep mode with a short press of sleep button.

①.Zoom(+) / Photo Taking

Zoom in or out with a short press of zoom button. Taking photos with a long press.

-17-

15 >Date/ Time

Enter the submenu "Date/Time" with a short press of OK button②. Select one of the options with OK button②. Select a correct value for year, month and date with a short press of ◀/▶ button. Select "YY /MM/DD", "MM/DD/YY" or "DD/M-M/YY" as your date format with a short press of ◀/▶ button. Save selected date and exit the submenu with a short press of Menu button.

16 >Format

Enter the submenu "Format" with a short press of OK button ②. Select "Memory" or "TF card" with a short press of ◀/▶ button. Confirm your selection with a short press of OK button②.

Please be careful, the data can not be recovered after the device is formatted.

17 >Default Setting

Enter the submenu "Default Setting" with a short press of OK button ②. Select "Cancel" or "OK" with a short press of ◀/▶ button. Confirm your selection with a short press of OK button②.

-16-

②.OK / Recording

Turn on/ off recording with a long press. Confirm your selection by pressing OK button.

③.IR/ mode switch (-) button

Switch between Black and White/Colorful mode with a long press of IR button. Pressing IR button under Black & White mode for instant setting of IR brightness.

④.Red dot button/ Menu

Turn on or off the red dot with a short press of red dot button. Enter the menu page with a long press of red dot button , exit the menu page with a short press.

Key Specifications

General Specifications

- (1) 1x1 2.4GHz frequency band (channels 1-11)
- (2) PHY supporting IEEE 802.11b/g/n
- (3) MAC supporting IEEE 802.11 d/e/h/i/k/v/w
- (4) Built-in PA and LNA, integrated with TX/RX Switch and Balun
- (5) Station (STA) and access point (AP) modes, up to six STA devices allowed for access as an AP
- (6) WFA WPA, WFA WPA2 personal, and WPS2.0
- (7) 2/3/4-line PTA solution with BT and BLE chips coexisting
- (8) Input voltage range: 2.3-3.6 V; I/O power voltage: 1.8 V or 3.3 V
- (9) RF auto-calibration solution

-22-

PHY Features

- (1) All single-antenna data rates of IEEE802.11b/g/n
- (2) Maximum rate of 72.2Mbit/s@HT20 MCS7
- (3) Standard 20MHz bandwidth
- (5) STBC RX
- (6) Short GI

MAC Features

- (1) A-MPDU and A-MSDU
- (2) Bk-ACK
- (3) QoS

Other Information

- (1) Operating temperature: -40°C to +85°C (-40°F to 185°F)

in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment

-25-

FCC Warning

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used
